**Subject: Invitation to contribute to a working group of experts
for the development of a Sulitest Specialized Module on Circular Economy**

Dear Madam / Sir,

As you are aware, connecting the cogs to build a truly circular economy is vital if we are to deliver on the targets of the Sustainable Development Goals. Such a challenge requires a bold new effort in order so that we can raise the awareness and education of people so that they are able to make better choices for the world.

With this in mind, Sulitest is working in a joint effort with the support of UN Environment Environmental Education and Training team to elaborate a set of specialized questions on the Circular Economy. This specialized module, focused on SDG12, will be made available for free via the Sulitest platform to universities and organizations worldwide.

Knowing your personal commitments and expertise on this crucial topic, we would be very grateful if you would accept to be part of the expert committee that will contribute to the co-creation of this set of questions.

This contribution will be presented during the next UN High Level Political Forum in July 2019, including results found on the trends on awareness regarding Circular Economy issues.

We would be thrilled to see you collaborating to this very exciting project and would like to invite you to participate to the project launch webinar meeting, which will take place on Thursday January 24th from 2 to 3 pm CET (8 am EST), where the project will be presented to all participants.

Of course, if that date does not suit you, we will organize a tailor-made meeting at your convenience.

Looking forward to collaborating with you on this important project.
Best regards
