Sustainability Literacy Tools & Community

The first international set to assess
"Sustainability Literacy"

One of the flagship initiatives of the UN partnership for

Tangible implementation of

WHAT IS THE SULITEST?

The Sulitest is a set of tools (including an international reference MCQ test) that are simple, flexible and easy to access, allowing today's and tomorrow's economic and political leaders to assess, acquire or improve their knowledge of sustainable development issues, disseminate this knowledge within their organizations, and integrate it into their practices and strategies.

And concretely?

Tests taken in the world

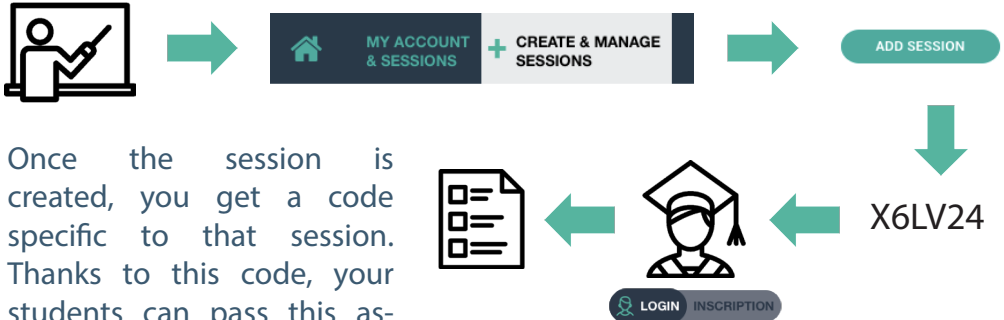

WHY SHOULD YOUR STUDENTS TAKE THE “TEST”?

The test consists of 30 questions in the core module and several country specific or SDG specific modules, addressing various topics at different scales. It allows you not only to raise awareness and assess your students' knowledge of Sustainable Development concepts at international and national level, but also to set up a specific module designed around your subject.

HOW CAN STUDENTS TAKE THE SULITEST?

• Sessions

30 questions
Unlimited time
Individual

Test learning mode
